

A summary of the adult social care sector and workforce in Central Bedfordshire 2022/23

Skills for Care is the strategic workforce development and planning body for adult social care in England. We work with employers, Government, and partners to ensure social care has the right people, skills, and support required to deliver the highest quality care and support, now and in the future. Our role is to respond and adapt to the emerging trends and needs within social care, using data and evidence to drive forward widescale change.

The information within this summary has been produced by Skills for Care using the Adult Social Care Workforce Data Set (ASC-WDS). We use the data collected by the ASC-WDS to create workforce models that, in turn, allow for estimates of the whole adult social care workforce and its characteristics to be produced. The * notation indicates the figure has been suppressed.

Across England, the vacancy rate has decreased compared to last year and the number of filled posts has increased. During this period international recruitment increased substantially which has impacted these trends.

Workers in Central Bedfordshire had on average 9.2 years of experience in the sector and 76% of the workforce had been working in the sector for at least three years.

We know that recruitment and retention is one of the largest issues faced by employers. 36.42% of employers reported that recruitment and retention is one of the largest issues faced by employers.

Qualifications, training and skills

We believe that everyone working in adult social care should be able to take part in learning and development so that they can carry out their roles effectively. Learning and development helps everyone to develop the right skills and knowledge to enable them to provide high-quality care and support.
